Career Objective

Motivated and analytical Computer Science Engineering student with strong interest in Python development, business operations, and management-oriented roles. Skilled in problem-solving, communication, teamwork, and data handling with hands-on exposure to Python, databases, and web technologies. Looking for an opportunity to contribute through analytical thinking, process improvement, collaboration, and adaptability in dynamic environments.

Education

GITA Autonomous College, Bhubaneswar, Odisha	2022 – 2026
B.Tech in Computer Science Engineering	CGPA: 7.7
Municipal Higher Secondary School, Rourkela, Odisha	2020 – 2022
Higher Secondary Education	Percentage: 60%

Professional Training

Python Full Stack Development Course

- Learning Python programming, OOP concepts, frontend and backend web development.
- Working with Flask, Django basics, SQL, HTML, CSS, JavaScript, and React.
- Developing analytical thinking, debugging, problem-solving, and project coordination skills.
- Understanding APIs, database connectivity, and application workflows.

Projects

AI-Based Resume Screening System

- Developed a Python-based application to analyze resumes and shortlist candidates based on required skills.
- Used Python libraries for data processing, filtering, and report generation.
- Automated resume screening to improve efficiency and reduce manual effort.
- Generated structured reports for easier decision-making and analysis.

Task & Performance Management Dashboard

- Built a dashboard application to manage tasks, monitor progress, and generate performance reports.
- Used Python and database integration to organize and analyze workflow data.
- Focused on reporting accuracy, productivity tracking, and process improvement.
- Demonstrated teamwork and multitasking while handling multiple project modules.

Technical Skills

Programming Languages: Python, SQL, JavaScript

Web Technologies: HTML, CSS, Flask, Django Basics, React

Database: MySQL

Analytical & Business Tools: MS Excel, PowerPoint, Reporting & Documentation

Core Concepts: OOP Concepts, API Integration, Database Management, Full Stack Development

Leadership & Soft Skills

- Strong communication and interpersonal skills.
- Analytical thinking and problem-solving abilities.
- Ability to work collaboratively in cross-functional teams.
- Quick learner with adaptability to changing tasks and responsibilities.
- Good presentation, reporting, and multitasking skills.
- Time management and organizational abilities.
